The City University of New York, College of Staten Island
Expected Bachelor's Degree in Computer Science,
Relevant Coursework: **Machine Learning, Data Structures**
Computer Science Club
Volleyball Club

Expected May 2026

Technical Skills

- Languages: Python, C++, JavaScript, HTML/CSS
 - Tools: Git/GitHub, VS Code, Excel, BeautifulSoup, Pandas
 - Other: Responsive Design, Web Scraping, CLI Development, Fluent in Cantonese
-

Projects

Portfolio (HTML, CSS, JSS) - 2024

- Designed and developed a **personal portfolio** website using **HTML, CSS, and JavaScript**, showcasing projects and skills.
- Increased project visibility with interactive hover effects and **mobile-first** animations.
- Implemented **responsive design** and interactive UI elements for an engaging user experience.
- Enhanced **front-end development skills**, including CSS animations, hover effects, and UI responsiveness.

Word hunt game solver (C++) - 2023

- Leveraged **Object-Oriented Programming principles** to create modular and maintainable code, facilitating future updates and feature additions.
- Built a C++ **algorithm** to solve the Word Hunt game, identifying all valid words on a **4x4 grid** using **DFS and backtracking**. Solving in less than 1 second
- Employed a **Trie data structure** to optimize word search operations, ensuring **fast and efficient** word detection.
- Designed an interactive **command-line interface** for user input and real-time results.

Custom Select Component (JavaScript, HTML, CSS - 2022

- Features scrollable options, visual feedback states, and **ARIA-compliant** focus management
- Developed a modular system with CSS custom properties for easy theme customization
- Developed an accessible, **customizable** dropdown select component using JavaScript and CSS, enhancing native `<select>` functionality.
- Implemented **smooth UI animations**, keyboard navigation, and search functionality for **improved user experience**.

Web scraping professors' information based on what department they are in (Python) - 2024

- Scraped **100%** of CSI departments using **Beautiful Soup and Requests**, automating data extraction for **200+** professors
- Integrated Google Generative AI to summarize achievements, reducing manual **analysis time by 70%**

Work Experience

Mount Sinai, Epic Cadence

September 2023 - August 2024

Epic Cadence Analyst

- Collaborated with a dedicated team to transition patient information to the Epic Cadence digital system while ensuring the accuracy and integrity of patient data.
- Troubleshoot and resolved **data migration** issues to maintain a seamless workflow.
- Migrated **5,000+ patient records** to Epic with **99.99%** data integrity.
- Resolved **120+ data migration issues**, cutting downtime by **35%**
